Subject Index

$ACTH_{4-10}$ 137
ACTH 1, 191
– content 156
– rhythm 191
Adenohypophysectomy 73
Adenohypophysial development 284
Adenohypophysis, rat, *in vivo* 212
Adrenal 240, 268
– cortex 1
– cortical response, stress-induced 73
Aldosterone 240
Alpha-methyl-*p*-tyrosine 183
Amines, biogenic 274
Amygdala 183, 229
Androgenization 46
Androstenedione 177
Antidiuretic hormone 257
– substance 257
Aromatization, brain 177
Auditory stress 183
Autograft, pituitary 73
Avoidance behavior 137
Axis, hypothalamic-adrenocortical 73
–, hypothalamic-pituitary 328

Behavior, avoidance 137
Benzoate, estradiol 46
Biogenic amines 274
Biological rhythm 191
Brain 144
– aromatization 177
– lesions 338
– monoamines 338

Capacitance, membrane 212
Castration 321
Catecholamines 144
– and cycling 248
– – in old rats 248
Cerebellum 229
Cervical ganglionectomy 306
Chronic stress 1
Circadian rhythm 268, 306
Clover disease 57
Compensatory ovarian hypertrophy inhibition 370
Control, feedback 156
Cortex, adrenal 1
Corticosteroid feedback 1
Corticosterone 191
–, plasma 268
CRF circadian rhythm 306
Cycle, estrous 144, 306, 321
Cycling, catecholamines and 248

Deafferentation, hypothalamic 183
Deserpidine 67
Diestrum, lactational 150
Differentiation, sexual 274
Disorders, endocrine 328
DOPA 67
Dopamine 144

Eminence, median 107, 229
Encephalectomy 284
Endocrine disorders 328
Epinephrine 248
Estradiol 57, 177
– benzoate 46
Estrone 177
Estrous cycle 144, 306, 321
Ether stress 183
Extract, hypothalamic 212

Feedback control 156
–, corticosteroid 1
– effects 229
Fornix 191
FSH 46
Function test, pituitary 328

Ganglionectomy, cervical 306

Glucose oxidation 321
Gonadotropin 119, 130
– releasing hormone 57
Growth hormone and sleep 338
– – inhibiting factor 338
– – releasing factor 338
– – secretion, nervous control of 338

Hippocampus 257
Hormone, antidiuretic 257
–, gonadotrophin-releasing 57
–, luteinizing 57
– inhibiting factor, growth 338
–, rat growth 183
– releasing factor, growth 338
5-Hydroxydopamine 274
Hydroxyindole-O-methyl transferase 274
Hypophysectomy 101, 137
Hypothalamic-adrenocortical axis 73
– deafferentation 183
– extract 212
– lesions 73
– pituitary axis 328
– receptors 57
Hypothalamus 1, 119, 139, 177, 197, 229, 321

Infertility 57
Inhibiting factor, growth hormone 338
Iproniazid 248
Isoflavones 57

Labeled MIF 92
Lactational diestrum 150
L-Dopa 248
Lesions, brain 338
–, hypothalamic 73
–, neonatal hypothalamic 22
LH 46
– releasing hormone, synthetic 328
– RH 130
Limbic system 177
Luteinizing hormone 57
Lysine vasopressin 137

Maturation 197
Median eminence 107, 229
Melatonin 274
Membrane capacitance 212
– resistance 212
Monoamines, brain 338
MSH-release-inhibiting factor (MIF) 92
–, half-life 92
–, labeled 92
–, metabolites of 92

Neonatal hypothalamic lesions 22
Norepinephrine 144

Old constant-estrous rats 248
Ovariectomy 306
Ovary 144
Oxidation, glucose 321
Oxytocin 11

Pargyline 67
Pars intermedia 22, 156
Pentobarbital 183
Pineal 240, 274
– vasotocin 370
Pituitary 130, 197, 240
– autograft 73
– function test 328
– gland 257
– stalk 257, 284
– transplant 101
Plasma corticosterone 268
Progesterone 101, 229
Prolactin 46
– levels 11, 240
– sodium deprivation 240
Prolyl-leucyl-glycinamide 92

Rat adenohypophysis, *in vivo* 212
– growth hormone 183
Rats, catecholamines and old 248
–, old constant-estrous 248
Receptors, hypothalamic 57
Releasing factor, growth hormone 338
Resistance, membrane 212
Retina 274
Rhesus monkey 177
Rhythm, ACTH 191
–, biological 191

–, circadian 286, 306

Sexual differentiation 274
Sheep 57
Sleep, growth hormone and 338
Sodium deprivation 240
Stalk lesion, pituitary 257, 284
Stimulus, tactile 150
Stress, auditory 183
–, chronic 1
–, ether 183
– induced adrenal cortical response 73
Suckling 11, 150
Sympathetic nervous system 274
Synthetic LH-releasing hormone 328

Tactile stimulus 150
Testosterone 177
Thelectomy 150
Third ventricle 370
Thyroid 197
Thyroxine transport 107
Transferase, hydroxyindole-O-methyl 274
Transmembrane potential 212
Transplant, pituitary 101
Transport, thyroxine 107
TRF 197

Unit recording 119

Vasopressin, lysine 137
Vasotocin, pineal 370

Water deprivation 268
